14.00-14.15 Director's welcome

-Containing also the fresh comments on the coming program

14.35-15.25 Site reports (10 minutes/site)

In these short talks we try to concentrate to the essentials and especially we try to hear the opinions and analysis of local managers and staffs under the title: What we have learned during EISCAT renovation"

15.25-15.45 Coffee/tea break w. sandwiches

15.45-xx.xx Comments and discussion originating from the site reports. (Remember that we still have to renovate the Svalbard radar).

xx.xx -17.00 Science report

Those having connection to science related to our measurements have promised to give some examples. We hear also some news from the EISCAT workshop in Tokyo because those workshops reflect the user's interest to EISCAT data. Also some future applications will be mentioned.

19.00- Barbequeparty (**bring warm clothes**)
Competitions
Entertainment by Halvard (one man orchestra)

4 September

08.00-09.00 Breakfast

09.00-10.00 Meeting –EISCAT now

-Meeting starts with a few short (15-20 minutes) talks containing “Analysis of situation” and handling the points, which are just now important. There are speakers on the following items:

- We, who are working for EISCAT
- EISCAT infrastructure
- Some computer sector arrangements
- Experiments in EISCAT
- Handling 26 Mhz bandwidth in the future
- ESR renovation
- ESR-DSP HW plans

After the “Analysis of situation talks” two, three or more working groups will be formed on matters, which are considered important and the procedures for presenting the results will be decided.

10.00-10.30 Coffee/tea break w. cookie

10.30-12.00 Meeting continues

12.00-13.00 Lunch

13.00-14.00 Meeting continues - discussions on working groups proposals
